Introduction

Botse Pty Ltd, established in January 2020, specialises in providing tailored rock drilling and breaking solutions for surface mines and quarries.

Our approach focuses on forming strong partnerships with our clients to deliver fast, reliable, and safe services designed to boost efficiency and productivity. By collaborating closely with our partners, we ensure predictable outcomes, mitigate risks, and reduce operating costs for large-scale mining operations.

About Us

As a Level 2 BEE Contributor, Botse Pty Ltd is committed to supporting economic transformation and empowerment in South Africa. We prioritise diversity and strive to create opportunities that benefit our business and our communities.

At Botse, we understand that our success depends on the success of our clients. That's why we focus on delivering innovative and efficient solutions to help optimise their operations. Whether it's drilling, breaking, or mining support, Botse is the trusted partner for reliable, safe, and cost-effective outcomes.

What We Do

At Botse (Pty) Ltd, we are committed to delivering top-tier rock drilling and blasting services for surface mines and quarries. Since our establishment in January 2020, our focus has been on providing fast, reliable, and safe services that help our clients achieve their goals while maintaining the highest standards of safety and environmental responsibility.

Our specialised services cover the entire scope of surface drilling, offering a range of drill rig diameters from 76mm to 311mm, tailored for all project sizes. We pride ourselves on precision and efficiency, ensuring optimum results in every project, whether it's drilling quarry blast holes or large-scale mining operations.

Our Services

1. **Drilling of Blast Holes**

   We use state-of-the-art drill rigs with the capabilities of an 89mm to 127mm hole on our Top hammers and a 127mm to 171mm hole on our DTH equipment.

2. **Blasting**

   We have highly skilled Blasters in our team. We are thorough in planning the whole process of priming, loading, tying and blasting.

3. **ROG Services**

   Rock on Ground Services involves the whole turnkey process from planning and designing the Drilling pattern to initiating the blast.

4. **Technical Services**

   We consult and provide technical expertise on all Opencast Drilling and Blasting operations.

Our Commitment

At Botse (Pty) Ltd, we believe in operating with the utmost responsibility, prioritising the health and safety of our employees, the surrounding communities, and the environment. We are committed to achieving zero injuries and work-related illnesses by fostering a culture of safety, accountability, and continuous improvement.

Excellence through Quality Service

Through thorough risk evaluation, compliance with legal requirements, and proactive training, we ensure that hazards are eliminated or controlled. We also prioritise minimising our environmental impact by using fuel-efficient equipment, and biodegradable products, and adhering to dust emission standards. Our dedication to safety and sustainability is integral to our success and the long-term protection of our people and planet.

Our Fleet

Botse's versatile fleet, comprising a range of DTH and Top Hammer drills, is equipped to handle diverse drilling and blasting projects. We operate across key mining regions in the North West, Limpopo, and Mpumalanga, supporting South Africa's vital mining sectors.

Our Support

At Botse, our skilled support engineering team, comprising mechanics, technical staff, and boilermakers, ensures seamless equipment maintenance. Our workshop, guided by dedicated management, oversees logistics and site operations, enabling quick responses to technical challenges and smooth operations across all locations.

Our Clients

At Botse (Pty) Ltd, we are proud to have partnered with a diverse range of clients in the surface mining and quarry industries. We have built strong, lasting relationships by delivering exceptional results that meet and exceed expectations.
